2. How to Select

Applicants are not allowed to apply for more than one course at the same time.

【Course of Industry-University-Government Co-Creation】 (*excluding Division of Electrical, Electronic and Infocommunications Engineering)

This course allows graduate students to participate in industry-university-government joint research activities by cooperating the Graduate School of Engineering with Joint Research Chairs*¹ and Research Alliance Laboratories*². The course newly involves “Internship on Campus”, which encourages the students to incorporate the joint research activities into the conventional graduate education. Students, who are accepted into the course, are assigned to an existing laboratory in each department. Please note that it is necessary to have a consultation*³ with the Office for Industry-University-Government Co-Creation before submitting an application to be accepted into the course.

*1 Joint Research Chairs are research units sponsored by companies who are fully dedicated to joint research on campus.

*2 Research Alliance Laboratories are research bases for various industry-university collaborations by attracting company-based R&D organizations to the University of Osaka.

*3 Contact information for consultations: Office for Industry-University-Government Co-Creation
(e-mail: creation@mit.eng.osaka-u.ac.jp)

3. Qualifications for Application

Applicants must meet one of the following qualifications.

- (1) Those who have earned or are expected to earn by September 30, 2025, a master's degree or professional degree.
- (2) Those who have earned or are expected to earn by September 30, 2025, a degree equivalent to the master's degree or professional degree in a country other than Japan.
- (3) Those who have completed or are expected to complete correspondence courses in Japan that are administered by a foreign educational institution and have thereby earned, or expect to earn by September 30, 2025, a degree equivalent to the master's degree or professional degree.
- (4) Those who have earned or are expected to earn by September 30, 2025, a degree equivalent to the master's degree or professional degree from an educational institution in a foreign country. The foreign educational institution should be one designated as being equivalent to a foreign graduate school by the Minister of MEXT (the Ministry of Education, Culture, Sports, Science and Technology of the Japanese Government).
- (5) Those who have completed the course(s) offered by the United Nations University, and have thereby earned, or are expected to earn by September 30, 2025, a degree equivalent to the master's degree.
- (6) Those who have completed a course at an educational institution specified in (4), or at the United Nations University; who have passed an examination and screening that prescribed in article 16-(2) of the Standards for Establishment of Graduate Schools; and whose academic capabilities are deemed, or expected to be deemed by September 30, 2025, equivalent or superior to those holding a master's degree.
- (7) Those who have been approved by the Minister of MEXT (as described in the Ministry of Education Directive, Vol.118, 1989).
 - ① The applicants must have graduated from a Japanese university or specialist college, conducted research for at least two years at a university or research institution in Japan or in a foreign country, and be recognized, on the basis of this research, as possessing academic abilities equivalent or superior to those holding a master's degree by UOsaka Graduate School of Engineering.
 - ② The applicant must have completed 16 years of formal study in a foreign country, or correspondence courses in Japan that are administered by a foreign educational institution and have thereby completed 16 years of formal study in a foreign country. The applicant should then have conducted research for at least two years at a university or research institution in Japan or in a foreign country, and must be recognized, on the basis of this research, as possessing academic abilities equivalent or superior to those holding a master's degree by the University of Osaka Graduate School of Engineering.
- (8) Those who are at least 24 years of age as of September 30, 2025, and can be recognized, by passing the “Preliminary Screening of Applicant's Qualification” conducted by UOsaka Graduate School of Engineering, as possessing academic abilities equivalent or superior to those holding a master's degree or professional degree.

- For those who will enroll as a Japanese Government (MEXT) Scholarship Student, both admission fee and tuition are not required.
- Directions on how to pay the admission fee and tuition will be given along with the guidance concerning documents required for enrollment procedures.
- The amount of admission fee and tuition are subject to change. Amendments to fees will be applied as from the exact date of amendment.

12. Policy on Handling Personal Information

- (1) Names, addresses, and other personal information obtained through the application procedure will be solely used in the Entrance Examination Process, in the Announcement of the List of Successful Applicants, in the Admission Procedures, and in the distribution of program leaflets. For those admitted into UOsaka, personal information will also be used in academic-related matters (such as keeping academic and registration records), in student support matters (such as health care management, school fee remissions and scholarship applications, career support, etc.), and in school fee management.
- (2) Information obtained through the entrance examination will be used in statistical analysis of examination results and research on admission methods.
- (3) We may outsource the part of the enrolment process to a subcontractor.

In this case, we will execute a contract with the subcontractor to ensure that personal information is handled appropriately, and will provide them all or part of your personal information submitted at the time of application.

13. Security Export Control

In accordance with Japan's "Foreign Exchange and Foreign Trade Act" (hereinafter referred to as the "Act"), UOsaka has established "the University of Osaka Security Export Control Regulations" and rigorously implements security export control for the export of goods and the transfer of technology (including accepting foreigners).

Please be aware that applicants who fall under any of the conditions set out in the Act may not receive permission to enroll at the university or may have their education or research restricted after their enrollment.

For more information, please refer to the website.
