【Course of Industry-University-Government Co-Creation】

This course allows graduate students to participate in industry-university-government joint research activities by cooperating the Graduate School of Engineering with Joint Research Chairs*¹ and Research Alliance Laboratories*². The course newly involves “Internship on Campus”, which encourages the students to incorporate the joint research activities into the conventional graduate education. Students, who are accepted into the course, are assigned to an existing laboratory in each department. Please note that it is necessary to have a consultation*³ with the Preparatory Office for Industry-University-Government Co-Creation before submitting an application to be accepted into the course.

*1 Joint Research Chairs are research units sponsored by companies who are fully dedicated to joint research on campus.

*2 Research Alliance Laboratories are research bases for various industry-university collaborations by attracting company-based R&D organizations to Osaka University.

*3 Contact information for consultations: Preparatory Office for Industry-University-Government Co-Creation (e-mail: creation@mit.eng.osaka-u.ac.jp)

3. Qualifications for Application

Applicants must meet one of the following qualifications.

- (1) Those who have earned, or expected to earn by September 30, 2020, a master’s degree or professional degree.
- (2) Those who have earned, or expect to earn by September 30, 2020, a degree equivalent to the master’s degree or professional degree in a country other than Japan.
- (3) Those who have completed, or expect to complete correspondence courses in Japan that are administered by a foreign educational institution and have thereby earned, or expect to earn by September 30, 2020, a degree equivalent to the master’s degree or professional degree.
- (4) Those who have earned, or expect to earn by September 30, 2020, a degree equivalent to the master’s degree or professional degree from an educational institution in a foreign country. The foreign educational institution should be one designated as being equivalent to a foreign graduate school by the Minister of MEXT (the Ministry of Education, Culture, Sports, Science and Technology of the Japanese Government).
- (5) Those who have completed the course(s) offered by the United Nations University, and have thereby earned, or expect to earn by September 30, 2020, a degree equivalent to the master’s degree.
- (6) Those who have completed a course at an educational institution specified in (4), or at the United Nations University; who have passed an examination and screening that prescribed in article 16-(2) of the Standards for Establishment of Graduate Schools; and whose academic capabilities are deemed, or expect to be deemed by September 30, 2020, equivalent or superior to those holding a master’s degree.
- (7) Those who have been approved by the Minister of MEXT (as described in the Ministry of Education Directive, Vol.118, 1989).
 - ①The applicants must have graduated from a Japanese university or specialist college, conducted research for at least two years at a university or research institution in Japan or in a foreign country, and be recognized, on the basis of this research, as possessing academic abilities equivalent or superior to those holding a master’s degree by the Osaka University Graduate School of Engineering.
 - ②The applicant must have completed 16 years of formal study in a foreign country, or correspondence courses in Japan that are administered by a foreign educational institution and have thereby completed 16 years of formal study in a foreign country. The applicant should then have conducted research for at least two years at a university or research institution in Japan or in a foreign country, and must be recognized, on the basis of this research, as possessing academic abilities equivalent or superior to those holding a master’s degree by the Osaka University Graduate School of Engineering.
- (8) Those who are at least 24 years of age as of September 30, 2020, and can be recognized, by passing the “Preliminary Screening of Applicant’s Qualification” conducted by the Osaka University Graduate School of Engineering, as possessing academic abilities equivalent or superior to those holding a master’s degree or professional degree.

4. Preliminary Screening of Applicant's Qualifications

Among the Qualifications for Application mentioned above, those who wish to apply under (7) or (8) must have taken a particular "Preliminary Screening of Applicant's Qualification" prior to the application period. Only successful applicant can apply. Such students must consult the Admission Section by June 12 (Fri), 2020. The Admission Section will announce details concerning the documents required for this procedure. Results of the screening will be informed within several days.

(2) Register for the Application Fee Payment System

Please access the following URL to visit the website of the Application Fee Payment System.

<https://www.sak2-app.jp/app/osaka-u-afp>

① Input Information about Application

Please select a school and an admission type by following the instructions.

② Input Basic Information

Please input the applicant's basic information by following the instructions.

③ User Registration

Please register an ID (email address) and a password.

④ Confirm Application Contents

Please confirm the input information. Please click "Alter" button to alter the contents.

<Note>

The information input at "① Input Information about Application" and "② Input Basic Information" will not be alterable after you complete the next step: "Application Fee Payment." Please make sure there is no mistake in the input information before proceeding to "Application Fee Payment."

(3) Application Fee Payment

① Application Fee 30,000 Japanese yen

※System operation fee will be charged separately.

② Choose Payment Method

Please confirm the amount of payment and choose the method of payment by following the instructions.

If you choose to pay by the convenience store or by the internet banking service of Pay-easy, an email message which

About Advanced Course of Cross-Boundary Innovation (CBI) Program

Osaka University offers several programs called “Program for Leading Graduate Schools”. Along with conventional graduate school education and research, these programs provide coursework to facilitate collaboration with a diversity of individuals in society. Through the program, students are able to obtain a broad perspective and foster the creativity necessary to become social citizens and active leaders serving the global society.

One of the programs, “Cross-Boundary Innovation (CBI) Program” is recruiting doctoral course students who are to start Advanced Course as follows.

The Cross-Boundary Innovation (CBI) Program is a place where excellent doctoral students selected from the graduate schools of Osaka University come together and grow as leaders who will promote” Integration of Society and Knowledge”, as a new form of collaboration between society and academics.
