International Priority Graduate Program on Engineering Physics

1. Program Summary

The objective of this program is to equip new generation of young scientists with fundamental knowledge and cutting-edge research skills in Engineering Physics. By elucidating the fundamental physical, chemical and biological properties of materials, and designing materials with novel functions, we open a new way to the development of nanotechnology, photon technology, and biomedical engineering. We also aim to develop and produce international collaboration through the creation of an intellectual human resources network. Furthermore, by utilizing interdisciplinary organizations and international networks, we contribute to other socially important fields such as new industries, environment, and energy problems.

2. Requirements for the Completion of the Course and Obtaining the Degree

(1) Requirements for completion of the course:

- ① earn no less than six total academic credits
- ② completion of the Special Research
- ③ defense the doctoral dissertation and passing the final examination of the course

(2) Degree: Doctor of Philosophy in Engineering

5. Application Requirements

- (1) Citizenship and residence status: This entrance examination is for those with the “Student” residence status. Those with other residence statuses are not eligible to apply for the entrance examination.
However, those who will be changing their residence status to “Student” prior to enrollment may apply.
For “Biotechnology Global Human Resource Development Program for Industry-University-Co-Creation”, “International Priority Graduate Program on Engineering Physics” and “Global Science and Engineering Course on Electric, Electronic and Information Technology”, those with Japanese nationality are eligible to apply for the examination as well.
- (2) Educational background: Applicants must fulfill one of the following qualifications:
 - ① The applicant has master’s degree or a professional degree by March 31, 2020, from a Japanese university.
 - ② The applicant has completed, or is expected to complete a course of study recognized as equivalent or superior to the master course at Graduate School of Engineering, Osaka University by March 31, 2020.
 - ③ The applicant is no younger than 24 years of age as of March 31, 2020, and is recognized as possessing academic abilities equivalent to those of university graduates, by passing “the Preliminary Examination of Applicant’s Qualifications” conducted by Osaka University (See Note (2)).
- (3) Language ability: Applicants must have a good command of English. Those whose formal education has been conducted in a language other than English must submit a certificate of English proficiency.
- (4) Health: Applicants must be mentally and physically healthy enough to pursue study at university.

Notes:

- (1) Admission will be revoked if arrival in Japan by the designated date is unavailable.
